---

Win7 MAC Address Changer enables users to change the MAC( Media Access Control) Address which are used to identify hardware devices such as Network Cards,modems,etc and which are said to be static in nature so can't be changed.. Features: • Fully compatible with Windows 7(Windows7 has a bug/protection which makes it hard to change the MAC address) • Random MAC address generator.. • List of Current MAC Address of all the adapters can be saved directly • MAC Address cleanup/reset which resets the default MAC Address of the selected adapter.
